IMPORTANT: As Director of your own PSC you are entitled to opt for one of the above salary structures provided you remain outside of IR35. If you are caught by IR35 in any particular contract, it is recommended that you draw a salary based on 100% of your total remuneration as you would be deemed as employed under these conditions. Thus not leaving your company exposed to a potential tax burden. This can be amended at any time. *Set salary is subject to minimum sales achieved into the company.*

B – DIVIDEND DISTRIBUTION FREQUENCY

(Please choose **ONE** of the following):

i. **Payroll Dividends**

ii. **Quarterly Dividends**

iii. **Bi-Annual Dividends**

NOTE: Please select a Dividend distribution frequency. Most starters elect 'Payroll Dividends' with a view to taking less frequent dividends as their knowledge of running a Limited Company increases. RACS will assist you in working towards taking your dividends (if applicable) only once or twice a year – this is RACS PSC **general policy** towards the processing of dividends. Dividends are **paid independently** to any salary payments and should be transferred from your account as such and as two separate payments.

Where invoicing **is chosen**, FIS (Freelancer Invoicing Services) will be instructed to act on your company's behalf and will contact your end clients where applicable.

All pricing structures can be found overleaf and can be changed at any time provided 30 days notice is given in writing and sent to the directors last known address. RACS cannot be held responsible for any changes in fixed fees or costs levied by third party providers, but will endeavour to review so far as may be practical and reasonable similar costs in the market place to try to ensure best value with its preferred providers.
